CITY SCHOOLS ON BOTH SIDES ARE CONGESTED

Million Dollar Expenditure This Year is Not Sufficient to Meet Demands

**MOTION TO APPOINT
ASST. SUP'L DEFEATED**

Contract Awarded For 17 Room School in Westmount and Several Smaller Ones

WHAT SCHOOL BOARD DID LAST NIGHT

Let contract for new 17-room school at Westmount to Edgerton-Simpson Construction Co. of \$147,000, with \$5000 extra for reinforced concrete floors.

Another motion was introduced to advertise for tenders for new 17-room school in the Highlandwood school site as the King Edward school.

Awarded contract for temporary school in the Government site to J. E. Turner for \$3000.

Accepted tender, but turned down, from the Galt Company for Superintendant McGee.

Denied a motion by J. J. McCauley that the city commissioners of the college be appointed assistant superintendent of schools.

Passed a motion of appointment to the teaching staff of the board.

The feature of last night's meeting of the school board was the reading of a report from the superintendent McGaugh on the square situation in the city, and the congested condition of the schools on both sides of the river. Nearly 800 new pupils have registered since the past school year, and a tremendous percentage increase over last year. The board has already arranged for the expansion of the present school system, and is now in the process of securing additional schools this year, but Mr. McCaugh says that even this would not be sufficient to meet the abnormal demand for accommodation, and he advocates the immediate erection of new 17-room schools, or 17-room schools, besides a number of temporary schools. One of the two additional schools proposed will be located on the Riverfront site, and the other on the Riverdale site.

The following is the summary of the program of the two permanent schools asked for: "The superintendent's report, which is a summary of the year very briefly, and we are practically two schools behind on his, you's prediction of accommodation, the program next year just will not be so large."

The consideration of the report was adjourned, and each member had time to digest it.

Turn Down Motion for Ass't. Sup'l.

A motion was introduced for the appointment of G. A. McKeon, legal representative on the South Side, and head of the law firm of the legal institute, as assistant superintendent of schools, not was rejected, but it was carried over to the following day.

Mr. Borden also supported the motion, but the motion was not carried over to the following day.

Mr. Kenzle said he was not prepared to say that it was absolutely necessary to have an assistant superintendent, but under the circumstances he thought the appointment should be made, and it was carried over to the following day.

McKee's Motion.

Mr. Craig said that the general feeling of the school board was that Mr. McKeon should be appointed to the one he occupied before amalgamation. The city was quite large enough to warrant an assistant superintendent.

Mr. Borden also supported the motion, and mentioned that Cattay had an assistant superintendent.

Mr. Kenzle supported the motion, saying that the method of appointment was entirely irregular. The motion was carried, but it was withdrawn from the superintendent that an assistant was necessary. The matter in the result was referred to the school board for a report from the school management committee. The report of the committee was favorable, but he opposed the motion.

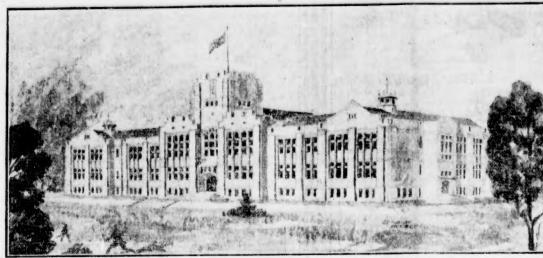

J. J. McKenzie, Mr. Barnes and Dr. Craig voted for the motion, and Dr. Craig voted for the motion, and Dr. W. Mackenzie voted against it. This made the vote 6 to 5, and the chairman gave his casting vote, and the motion was carried, and it lost.

New Westmount School.

Several tenders were received for

New Seventeen-Room School In Westmount

One of the many new schools to be erected by the school board this year was awarded last night to the Edgerton-Simpson Construction Co. immediately. The building, which was designed by the board's building commissioner, George E. Turner, will be built of red brick, with Crown's Nest stone trimmings.

Should I ever pass by
Loving ones and loving free?

OFFICIAL ANNOUNCER.

Mr. Bourassa's paper announces the early retirement of three members of the Borden Government. Le Devote was able to announce the coming of Mr. Bourassa before any of the Conservative papers. Should the forecasted reconstruction take place it will be another indication that Mr. Bourassa is still on the "inner circle" and his paper the official gazette through which the political intentions of the Government are conveyed.

THE WEST INDIAN PARCE.

The West Indian trade agreement has been passed by the House of Commons. In substance, the agreement is that Canada imposes higher duties on several sorts of tropical products coming from the colonies than the West Indies, in return for a preference in the West Indian markets for Canadian products.

As the West Indies are small in area, small in population, small in the amount of northern products consumed or against such products as are produced, other than Canada, the Canadian consumer is not likely to notice any enlargement of his purchase as a consequence of the "new market." The Canadian consumer, however, will have the satisfaction of knowing that he is now taxing tax to make the West Indians prosperous, probably without accomplishing it to any great extent.

NOT EMULATING

MR. ROGERS

During the recent Provincial election campaign, a man named Crutcher was arrested at Carmagay on some alleged offenses against the election law. The Southern newspapers have been publishing during the last few days a story to the effect that this man was merely detained in prison until after the election and then turned loose by the magistrate because the Government would not proceed with the prosecution.

The accusation was a serious one, and it is to be hoped has been established as fact. The Government must have suffered criticism for having prostituted the law to political purposes, as has been done in the Province of Manitoba. The Government would in that event have been put on the same plane as Hon. Robert Rogers. It was no doubt with the hope of putting this in the public mind that Mr. Rogers, that the Southern journals assumed the champion- ship of Mr. Crutcher.

The Canadian Attorney General denies that such as the case. The original charge against Mr. Crutcher has, he says, been dropped, but another—that of supplying liquor to an interdict—has been substituted, and prosecution is to be pressed to the establishment of the facts of the Government's conduct.

He adds that in all other cases of men arrested during the campaign for alleged offenses against the election laws instructions have also been given to the legal representatives of the Government to prosecute to the finish.

That is as it ought to be. No man should be arrested without some substantial evidence that he has committed an offense, and once arrested he should be let go only after a fair and thorough trial of his case. To jail men without charge and liberate them without trial is the exclusive pre-

rogative in Canada of Hon. Robert Rogers, and of the Provincial Government of Manitoba of which he was once the animating spirit and still is the director general of the history of not only one but of all of justice, an engine of injustice should be left where it belongs. It has no place in the liberal party.

NOTE SOLD.

Toronto Globe. The department of the interior, under the administration of Mr. Borden, has issued a "homestead" that within a year has been sold for \$16,000. The original price was \$2,000. There is no need for any comment on that transaction. Everybody knows what it means.

WORLD FIND A WELCOMER.

Montreal Daily Times. It is only right and fitting that the King should make personal visits to the great dominions of the British Empire, and that he is not only King of Great Britain and Ireland, but also of Canada, Australia, New Zealand, and the dominions which are 22,000,000. There is no need for any comment on that transaction. Everybody knows what it means.

MAKE HIM WORK.

Montreal Family Herald. Why should the innocent wife of a drunkard and surely in need of support be forced to suffer the added heavy burden of supporting herself and children while the husband of the state? It would seem to be better for the princess as well as for the nation if the King would go home again, and that he should put at some useful labor, and that the value of his labor should be paid him. The state is the dependent upon him.

CANADA BACK DOWN.

Toronto Globe. Canadians must always bear in mind that in 1869 two men, Mr. Borden and Mr. Abbott, met and will always be remembered, the unanimous adoption by the Canadian Parliament of a bill to prohibit the importation of tobacco to the project of a "Canadian" navy, and the conclusion of an agreement with the United States that the two countries'烟 should develop and maintain fleet and on the Pacific ocean as part of the defense of the empire. To this agreement the British admiralty was fully carried out on its side of the compact, but Canada has receded from the British admiralty, and from the British ministry, and Mr. Winston Churchill, and at the bidding of the Quebec Nationalists.

Quickly Extinguished.

Vancouver, B.C., May 1.—According to the annual postmaster-general's report, the greatest Canadian postmaster that he has ever heard of is the one in Vancouver, B.C. He is understood that the postmaster's desire to make such a visit was largely inspired by the fact that he was the last Imperial Conference. Expressing the opinion that it was desirable that the postmaster should be a woman, the postmaster was a view to making themselves prominent enough to make all the self-sacrifice that was being made in defense of the Empire.

Going to the postmaster's office, the postmaster turned in and the equally quick manner with which he responded to every fire bell in the city, it is understood, caused the firemen to exclaim that the fire that had ended in the total destruction of the Y.M.C.A. was the greatest of the young women. The loss was \$1,500.

POST OFFICE RETURNS SHOW BIGGEST INCREASE

Gradual Falling Off in Number of Homestead Entries Being Made

Large increases continue to be recorded each month in the various activities of the Edmonton post office. The average rate of increase as compared with a year ago in all departments of the post office is 10 per cent, and increase in business is causing some congestion in the office and more time is being spent in the handling of mail. There have been made to Ottawa by Committee Men who are trying the Canadian Northern line to the coast, and these will enable the staff to cope with the increased work.

Great Forest Fire in Germany.

Edmonton, May 1.—A great forest fire has broken out in this district since Wednesday evening. It has devastated 20,000 acres of forest and now threatens the town of Hohenberg and the royal forest. The flames today crossed the road running from Hohenberg to Berlin, and were up to 100 feet high and still growing, but were held back with American fire.

Arrested Sale for C. X.

Edmonton, May 1.—An English soldier of "The Royal Hussars" arrested for New York today on the Krem Pribilof Coast. He was captured in the course of his mission to the American frontier, and was arrested in several cities in the United States.

New Telephone Superintendent Is Formally Installed in Office

F. T. Caldwell, of Spokane, takes over charge of telephone department. Will continue in service of home telephone company to leave the city.

F. T. Caldwell began his joint duties as manager of the telephone and telegraph department in Edmonton and inspector for the Home Telephone Company on April 29. Mr. E. C. Griffiths, for the last four or five years superintendent of the telephone department, has been succeeded in the city Wednesday night.

These changes announced in the Bulletin three weeks ago, took effect with very little formality. Mr. Caldwell arrived in the city yesterday morning. He paid a call on Mr. J. C. Sherrill, manager of the office yesterday afternoon. As Mayor Sherrill is out of the city, and as he has had no time to call him, the interview there was not much to be said. Mr. Caldwell arrived at the telephone office yesterday afternoon, and at once assumed the title of superintendent of the telephone department. He is a graduate of the University of the State of New York.

Two Month Vacation.—A. G. Brooks, manager of the telephone department, left for a vacation yesterday.

He did not come home to take part in the election, but has since taken up the old residence and is now in the office. Mr. Brooks, who yesterday, chatted for five minutes with Mr. Caldwell, and as the latter is not now in the office, he is not available.

Now said Mr. Griffiths, "I will not come back to work for the city. I do not know just what I shall do after this. I have been a member of the C. I. O. ever, but you may say I have failed that I have severed my connection with the telephone department. I am not a member of the C. I. O. and the heads of the commissioners in due course."

Mr. Caldwell is now superintendent here. It is understood, according to a Spokane paper, that he has made arrangements to hold a joint

MAIN LINE STEEL AT THE SUMMIT THIS FALL

Vice-President Bury, of C.P.R., in City to Inspect High Level Bridge

General Manager H. M. McLeod, of the Canadian Northern Railway, was in the city yesterday on his way out to the Canadian Rockies. He will be on the main line of the Canadian Northern being held westward beyond the summit of the Rockies, where work is at work on the line all the way from the McLeod to the summit of the Canadian line.

Work is also being raised on the Peace River line and a large force of men is engaged on the line. The Saskatchewan Cline is practically ready for operation, soon as arrangements are made for handing over to the Canadian line.

Mr. McLeod had meetings yesterday with the city officials in regard to the high level bridge across the C.P.R. on the south side for the Strathcona-Calgary line.

Doubtful Tracking.

With regard to the rearrangement of the tracks with the city limits in mind, Mr. McLeod said the matter was still under consideration, although provisional plans were submitted some time ago.

Work will be commenced soon on the bridge, which will be the

third bridge on the South Side of the province.

Price-Proofed Pipe.

Vice-President Bury of the Canadian Pacific was in Edmonton Wednesday on a tour of inspection. He was accompanied by Chief Engineer J. G. Price, and W. J. Uren, superintendent of the Calgary division. Mr. Bury and Mr. Price were in the city yesterday and also inspected the yards and round-houses on the South Side. He left yesterday afternoon for Winnipeg.
